# LG PuriCare™ AeroTower Air Purifying Fan HIT

## Easy and Convenient

### Handy Control

The hand remote control makes it a breeze to operate.

### Filter Replacement

- ① Filter replacement notice pops up when due for replacement.
- ② Recommended replacement period: 1 year.

### Easy Operation

Operate the tower with the touch of a button.

### LG ThinQ™

Control the product anywhere with LG ThinQ™ app on the mobile phone. In-built Wi-Fi required.

### Gentle Breeze

Pleasantly quiet wind\* in sleep mode.

### 10-year Warranty

10 Year Warranty on Smart Inverter Motor.

## Specifications

	MODEL	FS15GPBK0
DESIGN	Color	Beige
	Size (W x D x H)	265 x 265 x 1,120 mm
	Weight	9.7 kg / 11.7 kg
GENERAL	Applicable Area	23.2 m <sup>2</sup>
	Clean Air Delivery Rate (CADR)	181 m <sup>3</sup> / hr
	Power Consumption	40 W
	Noise	53 dB (Max) / 23 dB (Sleep)
	Operating Mode	Normal / Auto
	Fan Speed	Auto, 1~10 Steps, Turbo
	FEATURES	UV Nano
Smart Indicator (PM 1.0 / 2.5 / 10)		✓
Air Purification Indicator		Green / Yellow / Orange / Red
Timer		2 / 4 / 8 / 12 hr
Filter Change Alarm		✓
Smart Diagnostics		✓
Pre-Filter		✓ (Washable)

## 360° Air Purifier Pet Mode

Control the air that your pet breathes

AS65GDST0

# LG PuriCare™ 360° Air Purifier Pet Mode

## 360° Clean for You and Your Pets

The LG PuriCare™ system removes dust<sup>#</sup>, germs, and allergens and delivers fresh air in return.

### Pet Mode

LG's Pet Mode~ will filter out 35% more hair particles than it does in Auto mode.

### Easy Change Pre-Filter

The Easy Change Pre-Filter can be easily replaced when it gets dirty from pet dander and hair.

### Safe Plus Filter (Pet)

The Safe Plus Filter (Pet) deodorizes the smells your pet leaves, maintaining higher performance when exposed to fluorescent light or sunlight regularly.

## Dual Inverter Dehumidifier

Speed up drying with less noise

MD16GQSA1

MD19GQGA1

powered by  
**ThinQ™**

### Why LG Dual Inverter Dehumidifier?

#### Nano Ion Purification

Removing harmful bacteria from the air.

**Step 1**  
Combine with water molecules in the air to form ion clusters, which surround various harmful substances.

**Step 2**  
Destroy the protection of bacteria thus removing it.

**Step 3**  
Harmful substances are combined to form water releasing clean air.

#### Auto Clean

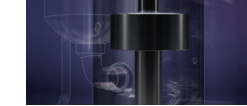

Mandatory air releasing after shutdown to dry the inner part of the dehumidifier, avoiding the build-up of mold and smell.

#### Dual Inverter Compressor

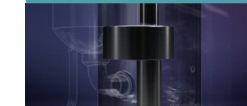

While the compressor determines the operating efficiency, performance and noise level of the dehumidifier, LG Dual Inverter Compressor is effective in energy-saving, strong performance, low noise level and is extremely durable.

##### Conventional Compressor

The compressor only runs at constant speed and it stops and opens repeatedly, thus increasing energy consumption.

##### Inverter Compressor

When a high amount of energy is needed, the compressor will run fast; when less energy is needed, its speed will be decreased. Compared with Conventional compressors, the energy consumption is relatively lower.

##### Dual Inverter Compressor

Comparing to conventional inverter compressors, dual inverter compressor requires less driving time, thus increasing energy efficiency.

#### Smart Efficiency

According to the humidity, the dehumidification intensity will be automatically adjusted, making the indoor environment dry and comfortable.

#### Strong Performance

The Dual Inverter design allows a strong dehumidification, with up to 30L daily dehumidification capacity, which is equivalent to 120 pieces of 250ml bottled water.

#### Less Noise

With 33dB low noise operation, your sleep will not be disturbed even when used at night.

#### Durability

10-year warranty for the compressor.
